1.Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a scrubbing method.

Group II, claim(s) 6-9, drawn to a scrubbing apparatus.

Group III, claim(s) 10 and 11, drawn to a lens mold drying method.

Group IV, claim(s) 12 and 13, drawn to a lens mold drying apparatus.

Group V, claim(s) 14 and 15, drawn to a method of manufacturing a lens.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The scrubbing method and apparatus, lens mold drying method and apparatus and method of manufacturing relate to different inventions and hence lack the same special technical features. Concerning the method and apparatus for the scrubbing and mold drying, the apparatus employs a mold holding unit while the method does not, and hence these lack the same special technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

2.While applicant did elect claims 1-9, it is believed that a further restriction is required. Upon an election, examination shall proceed.

3.Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.
